

Banking your funds

Once the paparazzi have left it's time to get those dollars in the bank so that they can be put straight to work helping people affected by cancer! There are four ways that you can bank your funds.

Option #1: Online through your fundraising page

This is the fastest and easiest way to get your money to us. All you have to do is visit your own fundraising page, hit the 'Donate' button and bank the money raised in one lump sum.

Option #2: Online via Direct Deposit

If you use online banking, you can directly deposit your fundraising dollars into our account by using the following bank details:

Account name: Cancer Council Victoria

Account number: 8377 25476

BSB: 013 128

Once the money has been transferred, please email iwillforcancer@cancervic.org.au stating the reference number, the date and the exact amount that has been deposited.

Option #3: Posting us a cheque

You can also bank by sending us a cheque in the post. Please ensure all cheques are made out to Cancer Council Victoria and posted to:

Attn: I Will For Cancer

Community Events Team

615 St Kilda Road

Melbourne

Victoria 3004

Option #4: Deposit Slip

You can also bank your funds in person at any ANZ bank. If you would like to do this, please contact us directly and we will send you a deposit slip. This will enable you to deposit the money directly into our account.

REMEMBER

Donations of \$2 or more are tax-deductible. All online donors will receive an automatic tax receipt via email. For any cash donations that require a receipt, please fill out the relevant details on the donation record sheets (available in your fundraising kit) and send them to us. We will then organise a receipts.

Keep a record

It's a good idea to keep accurate records of your financial dealings during your fundraiser in case Cancer Council Victoria needs details of the income and expenses associated with your effort.

Unfortunately we can't pay expenses incurred during the organisation and running of your fundraiser, but you can deduct necessary expenses from the proceeds you raise (as long as they are properly documented).
